rupted Mr. Jerome, "you must give an

Believed Him Insane. My opinion," said Dr. Wiley, "is that the man who committed the act described was suffering from insanity."
The winess was asked to define hereditary insanity, which he did, but when a question by Mr. Gleason as to the influence of hereditary insanity was asked it was objected to by Mr. Jerome.

Tr. Wiley said that is hereditary in-

was objected to by Mr. Jerome.
Dr. Wiley said that in hereditary insanity the common blood would flow
through brothers, and therefore a cousin,
the son of an uncle of the defendant
might follow the same heriditary in-

might follow the same heriotically influence.

"Are you acquainted as you sit there with the form of insanity which the law of this State defines and excuses for crime?" asked Mr. Jerome.

"Not entirely.

"Then your opinion upon the question you have answered was given as a scientific man. You had in mind the various forms of mental aberration which scientific men meet together and discuss?"

"Yes, and from my own application of the medical knowledge on the subject."

"Ar. Jerome asked the witness if he really considered himself an expert.

"I feel that I have had experiences—"began the doctor.

"That is not the point. Are you are or not."

'I think I am competent-"

Dodges Main Question.

"Are you an expert?" shouted Jerome "I am an authority," Dr. Wiley re-

After Dr. Wiley had said he was an thority, he was asked by Mr. Jerome he was willing to go on record before e world in this case as a scientific man, the world in this case as a scientification after merely witnessing Thaw's action on the street car in Pitusburg, and from a description of his killing of Stanford White, as saying that Thaw was insane. Dr. Wiley replied with decision.

piled:
"Yes," and started an explanation,
which was stopped quickly by Mr. Jerome
and Mr. Gleason, the former objecting to
the explanation and the latter endeavoring to stop his witness. When the question was again put to him he answered,
"No."

for Wiley explained that a person might now what he was doing and yet be ut-cily in the control of an irresistible im-Volitional Insanity.

"In other words," commented Mr. Jer ome, "we have a sort of volitional in sanity?" That is possible, coupled with a morbid

impulse"
"An act is morbid if it is insane?" "And a man may know the nature and inlity of his act, know that it is wrong id against the law, and yet be swept vay by an emotional impulse."
"Yes, by an impulse over which he has control."

What evidence of delusion was there in hypothetical question put to you by usel for the defense" asked Mr.

witness started to answer. "Walt a moment," commanded the Dis-trict Attorney, "let's go over this thing again. Give us the substance of the hypo-

again. Give us the substance of the hypothetical question on which you based so important an opinion in this case."

In repeating the question, the witness inadvertently admitted that he had taken into consideration his knowledge of the case outside of the question.

"Then you did not base your opinion entirely upon the question?"

"Not entirely. I based it on what I saw in Pittsburg and what I know of the case."

Matter Stricken Out.

Matter Stricken Out.

"I move that the entire question and answer be stricken out of the testinony," said Mr. Jerome. turning to Judge Filzgerald.

Counsel for the defense objected, but Justice Fitzgerald said he thought best to strike the matter out and go all ever it again so as to make the record clear.

Attorney Gleason reformed the question, this time basing it upon the law of insanity as laid down by the statutes of the State of New York.

Dr. Wiley again declared that he was competent to answer the question. "What is your opinion, based upon the form of insanity as laid down by the law of this State?" asked Mr. Gleason.

"The act of an insane man."

Mr. Jerome led the witness through a local series of questions dealing with all manner of subjects and asking him his opinion as an expert on most of them. "Are you a mythologist?" asked Mr. Jerome.

"No."

"Are Jerome.
"No."
"Have you studied the subject?"
"Not extensively."
"As a matter of fact, do you know what mythology is?"
"Yes.
"Yes.
"Yes.
"An act, or a direct act?"
"Yes.

"Is mythology an act, or a direct act?" Dr. Wiley would not venture a decision.
"You say a delusion is the result of a pathological condition?"

Goes Into Details.

Then the defendant's delusions must have come from a pathological condi-tion?" "Yes, coupled with a functional condi-

"Is it possible for a funtion to be ab-normal unless there is a disease"
"Yes, a dilated arrery, for instance."
"But a dilated arrery has nothing to do with the case of Harry Thaw, has it?"
"No."

Mr. Jerome wanted to know if Dr. Wiley believed in Christian Science. The doctor did not answer directly, but was pinned closely to the question by Mr. Jerome. He finally replied that he did

"Upon what in the hypothetical ques on did you base your conclusion as t

"By the fact that the man, sitting with 'Is there anything in the question about

provocation?" Jerome interposed.
"No." Dr. Wiley replied with a show
of feeling. "It was the manner of the
man, and the fact that he raised his hand in a peculiar way—"
"Stop,4 shouted Jerome angrily. "I
there anything in the question about pe

The witness admitted there was not perculiar?

The witness admitted there was not "The remark to his wife, I have probably saved your life," was another reason for the conclusion," said Dr Wiley.

"Did it occur to you that after firing three bullets into the body of his victim the man held his revolver aloft to indicate that his deed was done, that there was to be no further killing and that he wanted to avert a panic?"

"That entered into the calculation"

"Did motive have no bearing?"

"Yes, I read in the papers and I decided—"

#### Witness Is Baffled.

Witness Is Baffled.

"Stop. Did the question of motive make so light an impression on your mind that when you come here to testify as a scientific man, you want to import into the case what you read in the newspapers?" The witness was silent.

"Didn't this man raise his hand and his revolver to indicate there was to be no further killing?"

"Possibly, but as I was saying—"

"Will you refrain from volunteering information for which I don't ask. Answer my question and nothing else. I have had to ask this many times and don't want to have to do it again. When did you get here?" asked Mr. Jerome.

"Wednesday."

"Wednesday

'And you talked with counsel?"
'Yes about the case.
'About the hypothetical question?"

The witness fairly shouted the answer

The witness fairly shouted the answer. He also flushed angrily.

"Is not lealous rage the dominant element in the mind of every man who kills from jealousy?" asked Mr. Jerome.

"There may be other elements."

"Stop that voluntering and answer my question. Tell us some more of your conclusions from the hypothetical question," he requested.

"The time, the manner and the place chosen."

Was Place Chosen for Crime? "So." shouted Jerome, "you think the place was chosen for the crime, do you?" "No. My argument is that it was not

chosen-"
"I don't want your arguments. I keep

## All Humors

Are impure matters which the skin, liver, kidneys and other organs cannot take care of without help.

out of this. What is your opinion-was

the place chosen?

"No."

"Now, as to the manner—do you think that because this man with malice and sarred of the man he saw on the roof garden, walked over to him and fired hree bullets into his body, with the resolver so close that the face was power-burned, do you think that an

"Yes."
"Then the killing of any person in a Jealous rage is per se, an act of insan-

"Yes."
Mr. Jerome took the witness over every incident of the night of the tragedy, and asked him if in each case he thought Thaw's acts were those of an insane man. The witness finally replied
"Taken alone, they do not impress me so, but taken together, they do." We have gone over the entire case. Now tell me, did you arrive at your opinion that he was insane fro mthe facts of that night alone?"
"Dr. Wiley said the occurrances of the night of the tragedy had not wholly convinced him.

Based on Newsmaner Stories.

Based on Newspaper Stories.

He was asked if his opinion as to the insanity of the prisoner was based upon the occurrences upon the roof garden. Dr Wiley answering that it was.

"And after reading the newspapers?" Suggested the District Attorney.

"Yes."

"Yes."
Mr. Jerome then carried the witness through the various tests of allenists to discern brain trouble, such as reexes, etc., the witness nodding his assent and asserting that he knew them all, including the Romberg test." Commanded Mr. Jerome.

The witness said it was a test of the

The witness said it was a test of the

brain.

"But that is not an explanation of the Romberg system. Do you know it; have you ever heard of it?"

"I do not exactly know it."

"How many people have you examined as an expert to their insanity?"

"Oh, about 800; I don't know."

"Did you use the Romberg test on any of them?"

of them?
"I don't exactly know what the Romberg test is. I cannot say."

Mr. Jorome displayed the thoroughness with which he has studied medical authorities to fit himself for the Thaw case, by leading the witness through a chain of questions dealing with pathology, which at times seemed to thoroughly baffle the witness, who hesitated time and again and evadad direct answers.

Dr. Wiley was still undergoing cross-examination when a recess was taken at 2 p. m.

Afternoon Session. Dr. Wiley resumed the stand as soon

Dr. Wiley resumed the stand as soon as the afternoon session was convened. "Who have you talked to during the recess?" was the first question Mr. Jerome hurled at the witness.

"With Mr. Gleason," said Dr. Wiley.

"Who else?"

"Several other gentlemen, I don't know who they were:

"Did you talk about this case?"

"Yes. One of the gentlemen told me the Momherg test was a test for locomotor ataxia."

"They told you that?"

"Yes."

"And don't you know who it was whe told you that?"

"Was it no hame known to you?"

"Was it Dr. Hammend?"

"Was his name known to you?"
"No."
"Was it Dr. Hammond?"
Dr. Hammond, one of Thaw's alienists,
was asked to stand up.
"No." the witness replied.
Mr. Jerome further continued the tactics of the morning session, putting the
witness through a rigid test as to his
professional knowledge.

Makes Thaw Smile.

Makes Thaw Smile.

There was the sugestion of a smile on Thaw's face at some of the questions asked Dr. Wiley by Mr. Jerome.

"Doctor." Mr. Jerome proceeded, 'does the cardiac nerve connect directly with the cerebellum?"

The witness hesitated.

"Well." resumed Jerome, "maybe you can tell us if the pneumo gastric nerve joins the spinal column in the lumbar circle or in the dorsal region."

"In the dorsal region?"

"Where is the dorsal region?"

"Thave not read much on that."

"Oh, well, never mind that. Tell me if it is not a fact that the pneumo gastric and cardiac nerves are one and the same thing."

"They may be."

"I am. My father and his father were first cousins."
"When did your father die?"
"October 25, 1885."
"Where was your father, or have you any means of knowing, where he was when he died?"
"I object." Interrupted District Attor-ney Jerome. "The question is irrevelant and immaterial."

Mr. Glesson argued the point. He said and cardiac nerves are one and the same thing."
They may be."
"Don't you as a specialist in nerve dis-eases and an expert, know which is which?"
The witness remained silent. District Attorney Jerome rained question after question upon him and no answer was youchsafed. and immaterial. Mr Gleason argued the point. He said it was intended to show a collateral condition of Thaw's relatives—the relatives descended from a common ancestry. Mr. Gleason said he wanted to prove the hereditary phase of Thaw's insanity, and could trace it back to a common ancestry with the witness's father. It was not necessary or contemplated by the law that it should prove a man's father or grandfather were insane to establish hereditary insanity.

Question of Ancestry.

vouchsafed.

"Did you ever hear of Carsigitis?"

"No."

"What books on nervous diseases have you ever read?"

The witness mentioned two authorities.

"Do you recollect a single thing that any one of these authors said?"

"Not in their language."

"When did you last read them?"

"Just before coming here."

"Why did you do that?"

"I merely glanced at them."

Witness Completaly Gone

Witness Completely Gone. Dr. Wiley, can you recall anything you er read in any book? Please state it o the jury."

"I have read a translation of Oppen-

"Are you a homeopathist?" asked the

A "Nervous" Practitioner.

"I am a nervous practitioner."

During the long, harrowing cross-examination of the witness. Thaw's counsel were a study. Mr. Gleason looked appealingly at Dr. Wiley as he was piled with Mr. Jerome's questions. Mr. Delmas looked interested, and at times appeared fatigued. Mr. Hartridge was wortled. Mr. Peabody was busy in conversation with the prisoner a good part of the time. Attorney McPike could not suppress a smile.

Than finally began to bite his finger

test of light?"
"Yes."
"Where did you ever hear of it?"
"I don't recall."
"Did you ever hear of such a thing before I asked the question?"
The witness hesitated.
"Where, said Jerome, "in any book in God's whole wide world, did you ever read anything about the Argyle-Robinson test of light?"
Dr. Wiley did not reply.
"Did you ever examine this defendant as to his sanity?"
"No."

"No."
"Have you seen him often?"
"Yes, in Pittsburg."
"Can you determine whether or not nan is insane by looking at him?"

Never Talked With Thaw.

Did you ever converse with Thaw?"

No."
Do you think it right for you to com

here and give it as your opinion that a man is insune when you have not sub-mitted him to any examination?"

"I have given my opinion on a hypo-thetical question, not on an examination."
"Are you willing to stake your reputa-tion on that opinion?"
"I came here as a material witness of fact and I have here

fact, and I have been converted into an expert witness without any preparation." So you did not come here as an expert witness, but believe you have been converted into one?"

Yes.
'Do you think the conversion wi

"If a man at 36 years of age." asked
hrsanity, is scized with a homicidal mania
is he not likely to lapse into such delusions again."

usions again."

"He ight. It is a possibility."

"Is it not a probability?"

"That depends. If the object and circumstances of his delusion are removed he is not likely to lapse."

"What do insane people usually do after killing a person?"

Satisfied With the Deed.

"There usually follow evidences of sat-isfaction and relief and a declaration of fact. Thaw's declaration to his wife that be had probably saved her life was a very suspicious circumstance."
"Do you know that her life was not in danger?"

"Do you know that her life was not in danger?"
"No; I assume it was not."
Mr. Jerome concluded his cross-examination of Dr. Wiley, and Dr. C. H. Bingaman, a Thaw family physician from Pittsburg, was called as the second witness for the defense.
Dr. Bingaman knew Harry Thaw for thirty years and his mother for the same length of time.
"Did you attend Harry Thaw in his infancy?"

"Yes."
"What disease do you first recall?"
"St. Vitus dance."
On cross-examination Mr. Jerome mersily had Dr. Bingaman repeat that Thaw was I years of age when he suffered from St. Vitus dance. The witness was then released.

Testimony Ruled Out. Alfred Lee Thaw, 43 years of age, sident of Richmond, Va., next v

called.
"Are you related to the defendant, Har-ry K. Thaw?" asked Mr. Gleason.
"I am. My father and his father were

Special to The Tribune

nalls.

Dr. Wiley did not appear disconcerted in the least, however. He rubbed his eyes wearily with his hands as Mr. Jerome hurled broadsides of questions at him, and made no reply.

After bringing in every possible change in the pneumo-gastric nerve, Mr. Jerome passed on to the tests of insanity by the light and the eyes.

"Do you know of the Argyle-Robinson test of light"
"Yes." OGDEN, Feb. 5.—The flood of waters n Ogden canyon and in the Ogden river causing a great deal of damage and much distress. The force of the waters in the canyon has already carried out many bridges, and this debris has washed down the stream. The bridges at Idlewild have been damaged and some of them taken completely out. The stream s a torrent that cannot be controlled

is a torrent that cannot be controlled yet.

The debris has been carried down to the dam at the Hermitage and the entire current has been forced into the road, where it has already done damage to the road and the property amounting to \$500, and has not yet been diverted. Commissioner McKny. Sheriff Sobring and his deputies, together with the Road Supervisors and all the men they could impress, have been doing strenuous work all the day, but have mot been able to keep the river within its banks.

Lower down the choke of the river is more complete, and at the Sanitarium the hot water pipes from the hots pring have both been cut out and the water is flowing into the river. They fear that the channel will be changed, and that the river will take its old course.

The river is so choked with debris from the wreckage higher up, that the steel bridge just at the mouth of the canyon is about to go out.

the witness should be offered as a "Did you see your father in an asy-lum for the insane in the year 1885?" asked Mr. Glesson.

Mr. Jerome again objected to the ques-

on.
"In the present condition of the record
ind at this stage of the trial, I sustain
ne objection," ruled Justice Fitzgerald,
he witness was excused for the present. Family Physician Called.

Dr. John E. Deemar, a physician of Kittaning, Pa., was next called to the stand Dr. Deemar is the family phy-sician of the Copleys, Mrs. William Thaw's parents. Dr. Deemar said he had known Harry Thaw for twenty-five years. When the defendant was 9 years old Dr. Deemar treated him for a nervous disorder.

Dr. Deemar treated him for a nervous disorder.

'Did you know Henry W. Copley?' saked Mr. Gleason.

'Yes. He was a brother of Mrs. William Thaw, mother of the defendant.'

'Did you know John Ross?'

"Yes. He was a first cousin of the defendant. John Ross's mether was Margaret Copley Ross. a sister of Mrs. William Thaw.'

District Attorney Jerome here interposed an objection against any further examination of the witness, on the ground that the testimony he could give would be of collateral relatives of the defendant, and he did not think the matter should be further gone into until counsel brought authorities to sustain their position. Justice Fitzgerald upheld this contention and said the witness could be recalled at any time provided the authorities to be cited by the defense should prove the court in error in shutting out testimony as to any but descendants in a single line such as mother, father, grandmother, grandfather and so on.

Adjournment then was taken until to-morrow.

### A Reasonable Plea For The Stomach

If Your Stomach is Lacking in Digestive Power, Why Not Help the Stomach Do Its Work-Especially When It Costs Nothing To Try?

Not with drugs, but with a reinforcement of digestive agents, such as are naturally at work in the stomach? Scientific analysis shows that digestion requires pepsin, nitrogenous ferments, and the secretion of hydrehloric acid. When your food fails to digest, it is proof positive that some of these positive that some of these are lacking in your digestive

apparatus.
Stuart's Dyspepsia Tablets contain nothing but these natural elements necessary to digestion and when placed at work in the weak stomach and small intestines, supply what these organs need. They stimulate the gastric glands and gradually bring the digestive organs back to their normal condition

District Attorney Jerome argued in reply that the witness was not a competent person to testify as to insanity in the family of the defendant. It was necessary, he said, to go back to the great-grandfather and mother of the witness and the defendant to reach common blood. On the two collaterial branches of the family four separate stocks had been blended with the birth of the witness and the defendant.

"I infer from the opting address of the defense," said Mr. Jerome, "that they expect to prove by this witness that his father died in an asylum or some retreat for the insane. The fact that a man dies in an asylum is not proof of his insanity. The law does not recognize it. The fact that a man dies in an asylum like that conducted by the eminent Dr. Wiley, who was on the stand today, for instance, does not prove he was insane. Justice Fitzgerald said he felt constrained to adhere to his decision sustaining the District Attorney's objection for the present. He would take the authorities cited by Thaw's counsel under consideration. He thought a closer relative

tive organs back to their normal condition.

Stuart's Dyspepsia Tablets have been subjected to critical chemical tests at home and abroad and are found to contain nothing but natural digestives.

Chemical Laboratory. Telegraphic address 'Diffindo.' London. Telephone No. 11029 Central. 20 Cullum St., Fenchurch St., E. C.

London, 9th Aug., 1905.

I have analyzed most carefully a box of Stuart's Dyspepsia Tablets (which I bought myself at a city chemist's shop for the purpose), manufactured by the F. A. Stuart Co., Temple Chambers, London, E. C., and have to report that I cannot find any trace of vegetable or mineral poisons. Knowing the ingredients of the tablets, I am of opinion that they are admirably adaptable for the purpose for which they are intended. (Signed) John R. Brooke, F. I. C., F. C. S.

There is no secret in the preparation of Stuart's Dyspepsia Tablets. Their composition is commonly known among of Stuart's Dyspepsia Tablets. Their composition is commonly known among physicians, as is shown by the recommendations of 40,000 licensed physicians in the United States and Canada. They are the most popular of all remedies for indigestion, dyspepsia, water brash, insomnia, loss of appetite, melancholia, constipation, dysentery and kindred diseases originating from improper dissolution and assimilation of foods, because they are thoroughly reliable and harmless to man or child.

Stuart's Dyspepsia Tablets are at once a safe and a powerful remedy, one grain of these tablets being strong enough (by test) to digest 3,000 grains of steak, eggs and other foods. Stuart's Dyspepsia Tablets will digest your food for you when your stomach can't.

Ask your druggist for a fifty cent package or send to us direct for a free trial sample package and you will be surprised at the result. F. A. Stuart Co., 64 Stuart Bldg., Marshall, Mich. Millions of people all over the world are using SOZO-DONT because of its genuine

# UTAH COPPER IS TO INCREASE ITS STOCKS

Shares Will Be Sold to Enable Company to Perfect Mine and Plant.

Special to The Tribune. NEW YORK, Feb. 5 .- The directors of the Utah Copper company at a meeting held in this city today resolved to recommend to the stockholders an increase in the capital stock of 60,000 shares. The proceeds of this stock will be used to complete and perfect equipment of the company's mine, mills and waterpower.

This step is taken as a means for capitalizing the improvement which will enable the company to divert or use its earnings for dividend purposes and also to permit it to lay by a surplus. This it will be able to do as soon as the improvements are completed, as the company will then have no indebtedness to liquidate and will have sufficient working capital for all purposes.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's

dread enemy Tumor, The growth of a tumor is so in sidious that frequently its presence is wholly unsuspected until it is well advanced. So called "wandering pains" may

come from its early stages or the presence of danger may be made manifest by excessive monthly periods accompanied by unusual pain, from the abdomen through the groin and If you have mysterious pains, if

there are indications of inflammation or displacements, secure a bottle of Lydia E. Pinkham's Vegetable Com pound, made from native roots and herbs, right away and begin its use. The following letters should con-vince every suffering woman of its virtue, and that it actually does conquer tumors.

Mrs. May Fry, of 838 W. Colfax Ave. South Bend, Ind., writes: Dear Mrs. Pinkham :-

"I take great pleasure in writing to thank you for what Lydia E. Pinkham's Vegetable Compound has done for me. I also took the Blood Purifier in alternate doses with the Compound. Your medicine removed a cyst tumor of four years' growth, which three of the best physicians declared I had. They had said that only an operation could help me. I am very thankful that I followed a friend's advice and took your medicine. It has made me a strong and well woman and I shall recommend it as long as I live.

Mrs. E. F. Haves, of 26 Ruggles St., Boston, Mass., writes: Dear Mrs. Pinkham :-

"I have been under different doctors treatment for a long time without relief. They told me I had a fibroid tumor, my abdomen was swollen and I suffered with great pain. I wrote to you for advice, you replied and I followed your directions carefully and today I am a well women. Lydia E. Pinkham's Vegetable Compound expelled the tumor and strengthened my whole system."

Mrs. Perry Byers, of Mt. Pleasant, Iowa, writes

and to be hung in the executive cham-bers, and he is hereby authorized to pay the necessary and reasonable expense for procuring the same out of his contingent fund. Referred to the Committee on Edu-

cation and Art.
H. J. M. No. 3, by Benson—Whereas, By
the overflow of the Colorade river there
are possibilities of having in the Colorado
desert an inland sea, and
Whereas, the evaporation of said inland
sea would materially effect the aridity of
the vast area of dry lands in the West,
and

the vast area of dry lands in the West, and Whereas. By an order of President Roosevelt efforts are being made to control said Colorade river.

Resolved. By the House of Representatives, the Senate of Utalt, the Senate concurring, that President Roosevelt and the Congress of the United States be memoralized to desist from attempting to get control of said Colorado river, and Resolved. Further, that copies of this memorial he sent to Senators Smoot and Sutherland, and Congressman Howelf for presentation to President Roosevelt and Congress. Referred to the Committee on Federal Relations.

Sutheriand, and Congressman Howell for presentation to Frasident Roosevelt and Congress. Referred to the Committee on Federal Relations.

H. J. M. No. 4, by Sutton—Whereas, By a recent order of Secretary of the Interior Hitchcock, all entries for mineral land must be subjected to official inspection before patents are issued therefor, and Whereas, All entries for mineral lands are subjected to most rigid official examination, and report by officials of the Interior Department, to-wit: United States Deputy Mineral Surveyors, who make report from personal examination, and Whereas, It appears that the order referred to is not necessary and entails a great deal of unnecessary red tape and consequent delay in patenting mining land, therefore, be it Resolved, By the Legislature of the State of Utah, the House of Representatives, the Senate concurring, that President Roosevelt be, and is hereby petitioned to rescind said order on account of retarding the mining industry, and Resolved, That a copy of this memorial be sent to Senators Smoot and Sutherland and Congressman Howell for presentation to President Roosevelt.

And then the House adjourned until

And then the House adjourned until 2 o'clock this afternoon.
